PRESS RELEASE

IMMEDIATE RELEASE

Braintree, MA March 1, 2007 – New England Office Supply has recently launched a new Online Print Management Solution. A team of specialized in-house print experts is in place to assist with the implementation.

New England Office Supply has provided customers with print services for over 13 years. Increased print service demand has inspired the company to invest in an Online Solution, further enhancing their “one-stop-shop” ability for all of their customers needs.

This new solution allows customers to set up a printing portfolio online by creating templates for all custom printing applications. Management approval features allow multiple users within the company to place an order online and have their orders approved by a supervisor prior to submission. Re-ordering printed item is no longer a hassle. Customers simply logon and order their printing items as they would their everyday office supplies.

New England Office Supply is a minority, woman-owned business, certified by SOMWBA and the US SBA. They are one of the area’s leading sellers of office products, furniture, technology and print, providing corporations, state and local governments, colleges, and non-profit agencies with complete business products solutions. New England Office Supply offers a wide selection of over 60,000 products, including the largest selection of environmentally responsible recycled products.

For more information on this new Online Print Management Solution and to learn more about NEOS and all of their services and product offerings, log on to www.neosusa.com.
